

I am very much opposed to any weakening of the Indiana telephone Privacy law. I am on the Indiana do-not-call list and I value my privacy. I do not want anyone calling me to solicit business irregardless of whether I have done business with them in the past. This is in reference to docket #02-278. Stop selling out to big business. Protect the rights of citizens you are supposed to be representing. Thank you....Larry Deschler Lwd43@aol.com
